

EDA Report: Annual Enterprise Survey 2024

1. Dataset Overview

This dataset contains 21,672 records across 16 columns, related to the Annual Enterprise Survey for 2024.

Key features include:

- Industry names and codes
- Rolling mean employee size groups
- Financial metrics such as total income, salaries paid, etc.
- Data spanning from 2011 to 2024.

2. Data Cleaning Summary

- Dropped unused columns (e.g., Unnamed: 7 to Unnamed: 15)
- Converted 'value' column to numeric format
- Found 383 missing 'value' entries
- Ensured structure and formatting consistency

3. Key Insights

- Total income shows varying trends across industries
- Employment levels differ significantly by industry and size
- Wages paid trend closely follows income in most sectors

4. Visualizations

Below is a visualization showing total income trends across industries over the years:
